Microsoft Intune Enrollment

1. Open Software Center

2. Click on Applications, then Intune Enrollment

3. Click Install

4. The Intune migration will begin. The Software Center window will close, and the workstation will reboot on its own in about 5 minutes. The process runs in the background and no notification is presented, please be patient.

5. The workstation will check for updates and may restart several times.

6. When presented with the screen, sign in using your **UConn email** (first.lastname@uconn.edu), then click **Next**.
